Professional Experience

Head Of Development
Lamah Co, Libya

February 2023 – Present

- Improved Mobile Team Development: Streamlined the mobile app deployment process by implementing Fastlane, an automation tool, reducing manual effort and improving team efficiency.
- Stored all encrypted iOS provisioning profiles in a single repository, ensuring secure and centralized access.
- Replaced cloud-based tools like Bitrise with Fastlane CLI, saving significant costs and reducing deployment time from over 1 hour to a fully automated background process.
- Led a team of 10+ developers and engineers to deliver scalable and cost-effective cloud solutions.
- Reduced AWS cloud costs by 60% monthly through strategic optimization of EC2 and RDS services.
- Designed and implemented CI/CD pipelines using GitHub Actions, improving deployment efficiency by 20%.
- Collaborated with stakeholders to define product roadmaps and technical strategies.
- Utilized GitHub Actions Self-Hosted Runner to reduce machine costs by deploying a Mac Mini as an on-premise runner, enabling efficient CI/CD workflows while maintaining control over hardware and costs.
- Automated Repetitive Tasks: Designed and implemented automation workflows to eliminate repetitive tasks across the company, including email replies and daily team meetings, Created a Slack workflow to streamline daily stand-ups.

UI/UX Designer
Lamah Co, Libya

January 2021 – January 2023

- Conducted user research and designed intuitive interfaces for mobile and web applications, improving user engagement by 25%.
- Prototyped and tested new features, ensuring alignment with user needs and business objectives.
- Collaborated with development teams to ensure seamless integration of UI/UX designs into applications.
- —-

Remote Developer
Manasa Co, Libya

October 2020 – January 2021

- Develop 2 WordPress themes from scratch by PHP.
- Develop Simple Dashboard for iOT Devices by Python - Flask.

Android Developer
Lamah Co, Libya

October 2020 – January 2022

- Developed and maintained Android applications, focusing on performance optimization and user experience.
- Integrated third-party APIs and databases into mobile applications, ensuring data consistency and reliability.

Graphic Designer & CNC Operator

Sada, Belhaj Libya *January 2020 – October 2020*

- Client-Facing Role: Worked directly with clients to understand their needs and deliver custom design solutions (e.g., doors, ornaments, and decorative items).
- Design & Production: Created graphic designs using tools like Illustrator, then translated designs into machine instructions for CNC Router machines and CO2 laser systems.
- Problem-Solving: Developed innovative solutions to meet client requirements, ensuring high-quality and timely delivery.

HVAC Technician

Ras Lanouf Oil Company, Libya *November 2013 – October 2019*

- Maintained and repaired refrigeration and air conditioning systems in a high-pressure oil industry environment.
- Diagnosed and resolved complex technical issues, ensuring minimal downtime and operational efficiency.
- Problem-Solving: Developed innovative solutions to meet client requirements, ensuring high-quality and timely delivery.
- Worked effectively under tight deadlines, showcasing adaptability and resilience.

Education

Computer Science (diploma)

High Institute of Misrata, Libya *Graduated: May 2022*

HVAC Technician

Specific Training Center For Oil Industries, Zawia, Libya *Graduated: Nov 2012*

Certifications

1. [Android Basic Nanodegree by Google - (2019)](#).
2. [Foundation of UX (Google) - (2022)](#).
3. [GitHub Foundations - (2024)](#).
4. [AWS Cloud Practitioner - (2024)](#).
5. [AWS AI Cloud Practitioner - (2024)](#).
6. [AWS Solutions Architect Associate - (2024)](#).
7. [AWS Certified Developer – Associate - (2024)](#).
